## Amusements.

The first entertainment of the Indianapolis Lecture Course will be given at Tomlinson Hall Friday evening, by the Camilla Urso Concert Company. The course for this season is an exceptionally good one. Seats can be secured at Baldwin's music store.

The advance sale began promisingly at the office of Engle's, yesterday, for Imre Kiralfy's production of "Macbeth," which is to be given there at the Thanksgiving matinee to-morrow and the rest of the week. The production will be, it is said, one of rare beauty and collaboration.

Miss Verena Jarboe, who is always bright and attractive, will present the musical comedy "Starlight" at the Thanksgiving matinee at the Grand to-morrow and at the same time on Wednesday. Her company is a strong one, and much

new music is given. Seats can be secured in advance at the box-office.

Miss Castleton and her excellent company will repeat "A Paper Doll" at Engle's at the matinee this afternoon and to-night for the last time. The piece is full of entertainment. At the Park, Frank Frayne continues to draw large audiences. There will be a change of bill to-day, the new "St. Slocum" being given, with "Kentucky Bill" Friday and Saturday.

Much interest is being manifested in the concert announced for Wednesday evening, Dec. 1, at Tomlinson Hall. The company is made up of some of the best concert and operatic singers in the country: a pianist of national reputation, a violinist of fine ability, and an orchestra said to be equal to the best. Miss Emma Juch, Miss Hope Gann, Mrs. Teresa Carreno and Leopold Lichtenberg are all artists of fine talents, and the programme promised is in every respect a good one. The sale of seats will begin at the music-rooms of D. H. Baldwin & Co. to-morrow morning.

## HELP FROM THE CHARITABLE.

Managers of Several Institutions Receiving Their Annual Donations.

The lady managers of the Home of the Friendless, the Indianapolis and Colored Orphan Asylums were busy yesterday in receiving donations from the charitable whose liberality prompted them to add good cheer to the Thanksgiving observance. The managers of the Home of the Friendless are giving for the inmates of those institutions. The institution has now forty inmates, which number will be increased as winter approaches. The managers report the building in need of repairs, and expressed a desire for money to enable them to put it in proper order.

The contributions consisted of money, wearing apparel and groceries. The amount of cash given to the Home of the Friendless was \$253. That institution has now forty inmates, which number will be increased as winter approaches. The managers report the building in need of repairs, and expressed a desire for money to enable them to put it in proper order.

The ladies of the Orphan's Home had an entire window in the When at their disposal, which they utilized by displaying a beautiful picture store. The room of the orphanage group which would be hard to excel, indeed. Their pure faces and neat appearances were good for the eyes to rest upon, and their kind and helpful ways were a testimony to the care and teaching given them. The orphans went through some exercises which were highly appreciated by those who witnessed them. The home now contains eighty-seven children, and is in a prosperous condition. The amount of money given to it yesterday was about \$400. In addition, plenty of wearing apparel and provisions were donated.

The ladies receiving at Mr. Talbot's for the colored orphans said the asylum was in good condition. A new building, consisting of bath, school and reception rooms, has been recently built and equipped with all modern conveniences. Through the easy terms on which the contractors did their work the board has been able to pay about all the indebtedness incurred in its erection. The asylum now has sixty-five orphans, who are cared for by eight assistants. The donors of this year are in excess of those of last, but not so much so as to warrant a great deal of enthusiasm—the amount of money being \$78, along with a goodly amount of provisions. A cordial invitation is extended to the citizens to visit the asylum. The managers would like to have the people see for themselves the work they are doing.

As a result of the donors it received yesterday the Benevolent Aid Society will furnish forty dinners to the friendless to-morrow. The committee specially charged with the care of the Newborn's Home will also give the inmates there a Thanksgiving dinner. The committee needs for this purpose turkeys and other supplies. Friends of the boys are requested to leave their donations at the Home, No. 30 North Delaware street. Clothing suitable for boys from ten to sixteen years of age left at the same place will be thankfully received.

## A BURGLAR CAPTURED.

He Is Found Behind the Counter in a Hardware Store on Washington Street.

Captain Thomas, of the Merchants' police force, captured a burglar last night. About 9:30 o'clock he saw that all the lights in Lilly & Stankler's hardware store at No. 64 East Washington street, were turned off. He had passed the store but a few minutes before and the lights were burning. Having no key to the door, he went to the nearest telephone and called one of the clerks in the employ of the firm. When the clerk came the door was unlocked and the Captain began a search. After he had been at this work several minutes, a colored man was found crawling behind the counter. The man was called out from his hiding place, and on him were found six loaded revolvers, several knives and other articles he had taken from the store. He said another man had come in there with him, but had escaped while the officers were unlocking the door. At the station-house the man gave his name as William E. Burris and claimed that his home was in Chicago. The man who had escaped, he said, was named Moore. He had in his pockets a full set of burglar's tools, and the police think he is a professional burglar. The burglar entered the store by the door of the iron bar over a second-story window in the rear. They then descended to the basement through the elevator, and came up into the store-room through an unlocked door.

## A Portable Boiler Explodes.

A boiler explosion occurred in William W. Barnum's saw-mill and wood-yard, at No. 475 East Michigan street, yesterday afternoon, at 2 o'clock. There were two boilers in the building, one stationary and the other portable. The portable boiler had been leaking for several days, and yesterday forenoon the engineer began patching it. While doing so he allowed the water to get low, and when he turned on the cold water in the afternoon an explosion was the result. The entire end of the boiler was blown out, and it went crashing through the building with such force that the machinery was damaged, while the house was partially destroyed. The flying pieces of the boiler lodged in Davidson's lumber-yard, nearly a square away. There was no one around the mill when the explosion occurred but the engineer, and he was standing in such a position that he was not injured. The loss caused by the explosion is estimated at \$1,000.

## Button, Button.

The old game of "Button, button, who's got the button?" is very interesting, but there is more interest in knowing who has won that exquisite tapestry painting which we donated to the Flower Mission Fair to be given to the person selling the greatest number of tickets. The returns are coming in, and as soon as completed will be announced, with the name of the lucky winner. Watch for it. While watching come to our store, as we have some other things fully as interesting as all this, and much more.
